Graduate/Junior AV and Theatre Consulting Technician

At Studio Entertech, we believe that exceptional performances deserve exceptional venues.

That's why we've dedicated ourselves to creating spaces that champion theatre makers, storytellers and venue operators. Spaces that enable them to perform at their peak. As we move into our new era at Studio Entertech, this commitment remains at the heart of everything we do.

We are building our team's capacity with the addition of this junior role that will grow with our business. We are looking for an enthusiastic drafting technician who will assist our consulting team with schematics, drafting and development in Revit, Autocad and XtenAV. If you have a passion for theatre and AV, a history working in theatre and skills in technical and architectural drafting then you would be a great fit for this role.

This is a permanent full-time position located in Melbourne CBD, with a minimum of 3-days per week face-to-face in the office. A part-time role would be considered for the right candidate.

Primary duties include:

- + Assist with design and documentation related to Studio Entertech projects, including development of standard and detailed drawings
- + Undertake drafting and documentation in Revit, AutoCAD, XtenAV, Bluebeam, MSOffice and other tools as developed
- + Research and implement techniques for improving documentation and design efficiency
- + Maintain standard drawings including blocks, families, templates and styles for projects and advice documentation

Required skills and experience include:

- + Experience in theatre, events and/or live production
- + Drafting fundamentals in Revit with 2+ years demonstrated experience and/or formal training.
- + Working independently, with the confidence to seek clarification and follow-up
- + Working within a team environment

Highly Regarded skills and experience include:

- + Training or experience in architectural or engineering fields
- + Experience in AV schematic drafting
- + Proficiencies with Bluebeam, Word and Excel

We would encourage you to maintain your connection to the industry and continue to work on productions alongside your work with us. We will provide a level of flexibility with regard to time in lieu, annual leave and unpaid leave in order to carry out industry-based work.

Depending on experience this role will attract a salary of \$55,000 - \$70,000 plus superannuation.

To apply please respond to careers@entertech.com.au with your CV and a cover letter addressing each of the listed skills and experience.
